

10 reasons why desktop scanners are good for business

1 Compact

30% of customers choose desktop scanners because they're more compact and convenient

2 Time saving

Less time is wasted walking to the A3 copier and potentially waiting in a queue

3 Customised interface

Personalise the touch screen and create shortcuts for ease of use and smoother workflow

4 Familiarity

Desktop scanners and multifunction printers share a similar interface leading to reduced training and user error

5 Fast scanning

Scan up to 50 pages per minute double-sided, eliminating waiting time

6 More daily scans

Scan up to 5,000 sheets per day using the Automatic Document Feeder

7 Great versatility

Scan anything from a credit card to a crumpled receipt, or different paper sizes in one batch

8 Advanced image processing

Brother desktop scanners auto-correct documents, providing higher quality digital files

9 Extra security

Reduce the risk of leaving sensitive materials on a multi-user device - assisting in GDPR compliance

10 Maximum productivity

Easily share documents with anyone, anywhere - improving workflow efficiency
